Consent for care

I authorize STEM4U staff to administer basic first aid to my child if needed. In the event of a medical emergency, if I and my emergency contacts cannot be reached, I authorize STEM4U staff to call 911 / emergency medical services and to obtain emergency medical treatment for my child, including transportation to a medical facility. I understand that STEM4U staff are not medical professionals and will act in good faith.

Emergency medication authorization

As a general rule, STEM4U staff do not administer routine medication. If your child may need EMERGENCY medication during a program (for example, an asthma inhaler or an epinephrine auto-injector / "EpiPen"), please complete this section so we can respond appropriately.

Emergency medication(s) my child may need: _____

When / how it should be used (symptom or trigger, dose): _____

Where the medication is kept (e.g., in my child's bag): _____

Please choose one or both, as applicable:

☐ My child is old enough and permitted to carry and self-administer this medication.

☐ I authorize designated STEM4U staff to help my child use this emergency medication as described above, and to call 911.

I will provide the medication, properly labeled, and keep it current. I understand STEM4U staff are not medical professionals; any assistance is limited to a good-faith response to an emergency and to the written instructions I provide. This authorization does not obligate STEM4U to have staff trained in a specific medication; STEM4U will tell me if it cannot accommodate a specific medication need.

Financial responsibility

I understand that I am responsible for all costs of medical treatment, transportation, and care provided to my child.

By signing below, I certify that the information above is accurate and I consent to the terms of this Emergency Medical Authorization.
