

FLL BIOGLOW — Mission Complexity & Strategy Tracker

Rate each mission, decide what to attempt, and plan your runs. Pencil is perfect — update it as you test.

Team _____ Point goal this season _____ # of robot runs planned _____ Date updated _____

#	MISSION	PTS	COMPLEXITY	ATTEMPT?	RUN	TARGET	NOTES / STRATEGY
M01	Drone Survey		L · M · H	Y · N			
M02	Exploding Seeds		L · M · H	Y · N			
M03	Flip the Rock		L · M · H	Y · N			
M04	Lucky Leaves		L · M · H	Y · N			
M05	Reaching Roots		L · M · H	Y · N			
M06	Leafcutter Frenzy		L · M · H	Y · N			
M07	Humongous Fungus		L · M · H	Y · N			
M08	Tangled Vine		L · M · H	Y · N			
M09	Research Platform		L · M · H	Y · N			
M10	Fragile Microhabitats		L · M · H	Y · N			
M11	Window to the Past		L · M · H	Y · N			
M12	Forest Elder		L · M · H	Y · N			
M13	Keystone Species (dock)		L · M · H	Y · N			
M14	Seeds of Renewal (dock)		L · M · H	Y · N			
M15	Biocentric Architecture (dock)		L · M · H	Y · N			

How to use: **Pts** = max points (from the Robot Game rulebook). **Complexity** — circle **Low** / **Medium** / **High** for how hard it is to build + code. **Attempt?** — circle **Y/N** once you decide. **Run** = which robot trip it's on. **Target** = points you expect to score. **Tip:** start with high-point, low-complexity missions — that's the best points-per-effort. Re-score after every practice.
